

Apangea Learning, Inc. Position Advertisement

Part-Time Math Teacher

About Our Company:

Apangea Learning is setting a new standard in the way students learn. With a unique integration of intelligent software and live support from certified teachers, our research-based solutions successfully scale education resources to reach more students efficiently and effectively. Our math solutions provide differentiated instruction for every student – struggling, advanced, and all students in between.

Job Description:

Apangea Learning Math Tutors work in a fast-paced, collaborative environment teaching students in grades 5-12 in various levels of mathematics with a concentration on middle school mathematics.

Job Responsibilities:

1. Provide ongoing math teaching services to students in grades 5-12 using our unique technology via a personal computer.
2. Provide instruction that is both high quality and efficient.
3. Requirement of 20-25 hours per week. Schedules are flexible and include occasional weekends.
4. Training will be in Pittsburgh, PA office and then job is performed remotely from your home.

Knowledge and Skill Requirements:

1. Bachelor's degree in education or a related field is required.
2. State teaching certification required (middle school math or secondary math certification is preferred).
3. Act 34, 114 and 151 Clearances required.
4. Demonstrated successful experience in education or an education-related field.
5. Ability to multi-task and independently problem-solve.
6. Strong personality and communication skills.
7. Strong technology skills with an emphasis on typing skills and the Microsoft Office software suite.
8. Second language preferred but not required
